SUMMARY

I am Fresher Java Full Stack Developer and UI/UX Designer with internship experience in designing and developing responsive web applications. Skilled in Figma-based UI design, HTML, CSS, Bootstrap, and JavaScript, with backend knowledge in Java, Spring Boot, REST APIs, and PostgreSQL. Strong foundation in integrating frontend interfaces with backend logic and building clean, user-focused applications.

TECHNICAL SKILLS

UI/UX Design

Figma, Adobe XD, Sketch, Wireframing , Prototyping , User Flow Mapping , Low Fidelity & High-Fidelity Mockups.

Frontend Development

HTML5, CSS3, Bootstrap, JavaScript (ES6, DOM Manipulation, Event Handling), Responsive Layouts, UI Integration.

Java Backend Development

Core Java, Object-Oriented Programming (OOP), Collections Framework, Exception Handling , JDBC, JavaFX .

Java Full Stack (Spring)

Spring Framework, RESTful APIs, MVC Architecture, Dependency Injection, JPA, API Testing (Postman – Basics)

Database Management

PostgreSQL , CRUD Operations, SELECT, INSERT, UPDATE, DELETE, GROUP BY, JOIN, Constraints .

Development Tools

GitHub , Visual Studio Code, NetBeans, PgAdmin, Postman, Spring Boot, Scene Builder, Figma.

EDUCATION

Bachelor of Science (B.Sc.) in Networking
Subbalakshmi Lakshmipathy College, Madurai
2022 – 2025
First Class

Higher Secondary Examination (HSE)
Dolphin Matriculation Higher Secondary School
2021 – 2022

INTERNSHIPS

Frontend Development Intern
Izeon Innovation, Chennai (December 2024 – March 2025)

- Developed responsive web pages using HTML, CSS, Bootstrap, and JavaScript, improving usability and cross-device compatibility.
- Live Project: https://aniruddhan2109.github.io/Rolex-watch/

UI/UX Designer (Figma)
Magilzhi Tech Academy, Madurai (November 2025 - January 2026)

- Designed complete UI/UX system for a Dental Clinic Web Application.
- Created user flows, wireframes, and high-fidelity prototypes.

PROJECTS

Supermarket Management System
Java Full Stack Developer & UI/UX (JavaFX + Figma) – Magilzhi Tech Academy

- Developed a desktop application using JavaFX, PostgreSQL, and JDBC following MVC architecture.
- Implemented key modules such as Billing, Inventory, Employee Management, and Reports.
- Built a dynamic billing system with automatic calculations and invoice generation.
- Designed UI screens in Figma and converted them into responsive JavaFX interfaces.
- Ensured data consistency, security, and stable performance through optimized queries and testing.

Yamaha Bike Sales & Service App
UI/UX Designer (Figma) – Innovel Institute

- Designed a complete mobile application UI for bike sales and service management using Figma.
- Created detailed user flows, wireframes, and high-fidelity mockups for sales and service workflows.
- Built interactive prototypes to demonstrate booking, sales, and service processes.
- Designed clean, user-friendly UI components to improve navigation and customer experience.

CERTIFICATIONS

- Frontend Development Internship Certificate **– Izeon Innovation**

- UI/UX Design Certification (Figma) **– Innovel Institute**

- Java Full Stack Development Certification **– Magilzhi Tech Academy**

- UI/UX Design (Figma) Internship Certification **– Magilzhi Tech Academy.**
